

LifePRO Unit Framework for ALL Year 2 learners in AY2026

Launch of LifePRO

From April 2026, NYP's General Studies Module (GSM) framework will transition to the **LifePRO Unit (LPU) Framework** with modules renamed as LifePRO Units.

LPUs are essentially the existing GSMs under a new framework and name, with the same goal of supporting your holistic development beyond your domain studies.

Why are we transitioning from GSM to LifePRO?

- **More flexibility for your learning journey**

The GSM structure has been streamlined allowing you to explore opportunities under our new initiative, **Go Beyond** through the Professional, International and University pathways.

- **Stronger focus on real-world skills**

LifePRO places greater emphasis on developing LifeSkills that complement your diploma studies.

What this means to you?

There are no changes to your curriculum or requirements.

This is purely a name change **from GSM to LifePRO Units**.

Your existing modules, credits and graduation requirements **remain the same**.

Year	Day and Time Slots
2	Tuesday, 2pm-3pm Tuesday, 3pm-4pm Tuesday, 4pm-5pm Tuesday, 5pm-6pm

2. LPU Selection Process

LPU Selection Process

- All Year 2 learners will pre-select a certain number of your desired elective LPU choices by using **GENESSYS** (LPU Selection System)
- You will be registered for learning units by GENESSYS, subject to the following factors:
 - The order of your choices
 - Demand and availability of the learning units that you have selected
 - Your average nett LPU attendance percentage, if you have selected an over-subscribed learning unit

How Is Your LPU Attendance Rate Considered For learning unit Allocation?

- If a particular LPU is over-subscribed (i.e. more applicants than vacancies), GENESSYS will look at each learner's **average nett LPU attendance percentage for the last 2 semesters** to determine allocation.
- A learner with a higher average LPU attendance rate for the last 2 semesters will be given priority for the learning unit versus another learner with a lower attendance rate.
- Only your net LPU attendance percentage will be considered (you are not penalised for missed lessons due to valid reasons).
- It is therefore important for you to attend your LPU classes regularly to maintain a good attendance rate, which gives you a higher chance of securing your choice LPU for future semesters' selection exercises.

Over-subscribed learning units – How it Works

A LPU has
20 places
available

30 learners
have picked
this LPU as
their 1st choice

- System will compare the average LPU attendance % for each of the 30 learners
- System will give the 20 places to learners who have the best attendance rates

If there is a tie for the last few places due to similar attendance %, the system will randomly allocate the remaining places

3. How to Select LPUs

Access MyNYP Portal

- Once the selection exercise is open, log into the student portal - **myNYP Portal** - with your log-in ID and password

The screenshot shows the Nanyang Polytechnic MyNYP Portal homepage. At the top, the NYP logo and name are on the left, and links for FAQ, Forgot Password?, and a Login button are on the right. The main banner features the text "BEGIN YOUR RESEARCH WITH STATISTA" and describes it as a database with over 1.5 million statistics. Below this, there are four small promotional tiles: "Starting point of your research begins with statista", "If you need a listening ear, come speak to our counsellors.", "Bursaries Available", and "Global No. 1 Data Platform" with a note about access via the Library Portal. At the bottom, a "POPULAR SERVICES" section includes icons and links for Blackboard, NYP Email, and Student Life Academy. A cartoon robot character is visible on the right side of the page.

Submit Your Choices

- Your choices are considered successfully “submitted” once they are **saved**.
- After submitting, you can still log into GENESSYS to make changes to your previous selection **before the closing date** of the selection exercise, after which all choices are considered **final**.

4. Important Information for LPU Selection

Learning units are grouped into the following three categories

Group	Learning units offered by	No. of Choices you must make per group for choices 1 to 9
1	CILS (Centre for Innovation & Life Skills)	2
2	SBM, SEG and SAS	4
3	SDM, SHSS and SIT	3

For choices 10, 11 and 12, you can select learning units from any of the three groups.

- You are given a total of **12 choices** for submission.
- For **choices 1 to 9**, you are required to select two learning units from Group 1, four learning units from Group 2 and three learning units from Group 3 in any order (see table above).
- **Last 3 choices (Choice 10, 11 & 12)** can be from any group
- Please refer to LPU portal in myNYP Portal for more information on LPUs and number of vacancies offered.

LPUs with Pre-Requisite Conditions

Please note that you must meet the pre-requisites for the following learning units:

Year 2 Learning Units

- Introduction to Chinese Language
(*must not have taken Chinese previously*)
- Business Chinese
(*must have achieved a grade of 1-6 in 'N' or 'O'-Level Chinese*)

Learners who have been allocated a learning unit but found not to have satisfy the pre-requisite may be reassigned to another LPU

LPUs with Pre-Requisite Conditions

Foreign Language Optional Electives (FLOE)

If you have taken and passed FLOE Level 1, then you will not be allowed to take LPU Language 1 or LPU Language 2 as both these learning units share similar content as the FLOE 1 learning unit.

Example:

1. You have taken and passed Japanese Language Optional Elective 1 during Year 1
2. During LPU selection, the system will not allow you to take the following:
 - Intro to Japanese Language 1 (for Year 2 learners)

Making Your Submission

- Please ensure that you **complete all 12 choices** before submission.
- After submitting, you can still log into GENESSYS to make changes to your selection before the closing date of the selection exercise, after which all choices are considered final.
- Do note that due to overwhelming demand for some learning units, learners may not be guaranteed their top choices.

Important Considerations When Selecting Your LPUs

- Select and prioritise your learning units based on interest
- Takes note of learning units that have pre-requisites when making your selection
- Spread your selection across the various time slots to maximise your chances of getting the learning units that you want, especially if you are required to take 2 LPUs

For example, you selected only the 2pm time slots for all your 12 choices.

Implications:

Competition for these time slots may be high and you may end up not getting any LPU of your choice. GENESSYS may then allocate you to any available LPU outside of your selection.

Instead, you should select a mixture of time slots – 2pm, 3pm, and 5pm – for learning units that you are interested in to maximise your chances of getting a place.

Posting Results

- Allocation will be confirmed around a week before semester starts
- Please check and print your timetable to view the LPUs that have been allocated to you
- If there is any discrepancy in your LPU timetable, please inform your Personal Mentor or Course Manager

5. Dates of LPU Selection Exercise

LPU Selection Exercise Schedule

Activity	When
Start of Exercise	Tuesday, 29 Sep 2026, 0900hrs
End of Exercise	Thursday, 1 Oct 2026, 1000hrs

- You can log into GENESSYS anytime during the exercise to select your preferred learning units
- Please ensure that you submit your selection before the end of the exercise
- Learners who did not participate in the selection exercise will be allocated any learning units with remaining vacancies after the main posting exercise.

CALLING YEAR 1 STUDENTS (AY2026 S1)

Fitness for Life (FFL) and LPU Selection Exercise is happening for ALL Year 1 students starting 21 Apr 2026 (Tue). Please refer to the student portal for more information.

LifePro Units

To provide an all-rounded educational experience, the polytechnic offers LifePro Units (LPUs). This means that besides taking diploma learning units related to your chosen area of discipline, you will have the opportunity to be exposed to areas beyond your field of study. Through a combination of prescribed and elective LPUs, you will gain interesting, practical knowledge and level up your life skills competencies. These can be beneficial to you as you prepare for the world of work and life after graduation.

6. Key Takeaways

Key Takeaways

A quick summary of the most important things to remember.

- Log into the **myNYP Portal** to access GENESSYS. You will have **12 choices** to rank in descending order of preference. For choices 1 to 9, you must select the correct number of units from each group - 2 from Group 1, 4 from Group 2, and 3 from Group 3. Your last 3 choices (10, 11 and 12) can be from any group.
- Check the **pre-requisite conditions** for language units. Learners who do not meet pre-requisites may be reassigned.
- Spread your choices across the **Tuesday time slots** to maximise your chances, especially since you are required to take 2 elective LPUs.
- If an LPU is oversubscribed, allocation is based on your **average nett LPU attendance rate** over the last 2 semesters. In the event of a tie, places are allocated by **random ballot**.
- The exercise opens on **Tuesday, 29 Sep 2026 at 9am** and closes on **Thursday, 1 Oct 2026 at 10am**. Posting results will be confirmed approximately a week before the semester starts. Check your timetable and raise any discrepancies with your PEM or CM promptly.
