Wireless LAN Client Configuration Guide for NYP-STUDENT

3. WiFi Connected Successfully

- When user is successfully connected to WiFi, it will show connected under SSID name.

Troubleshooting Tips

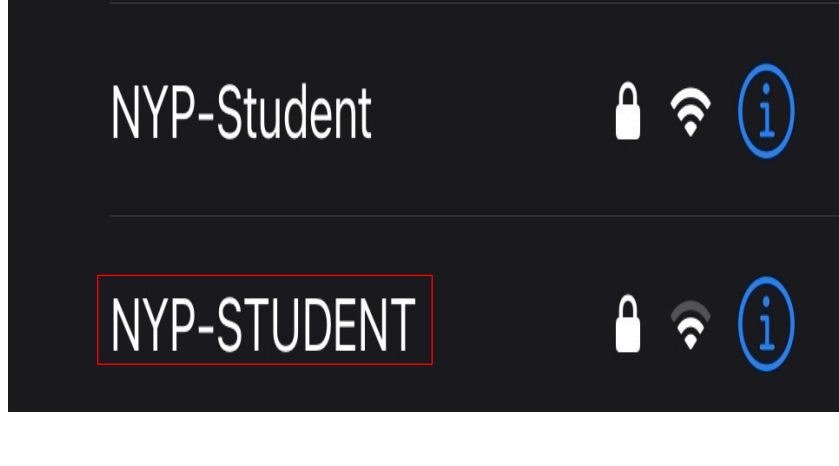

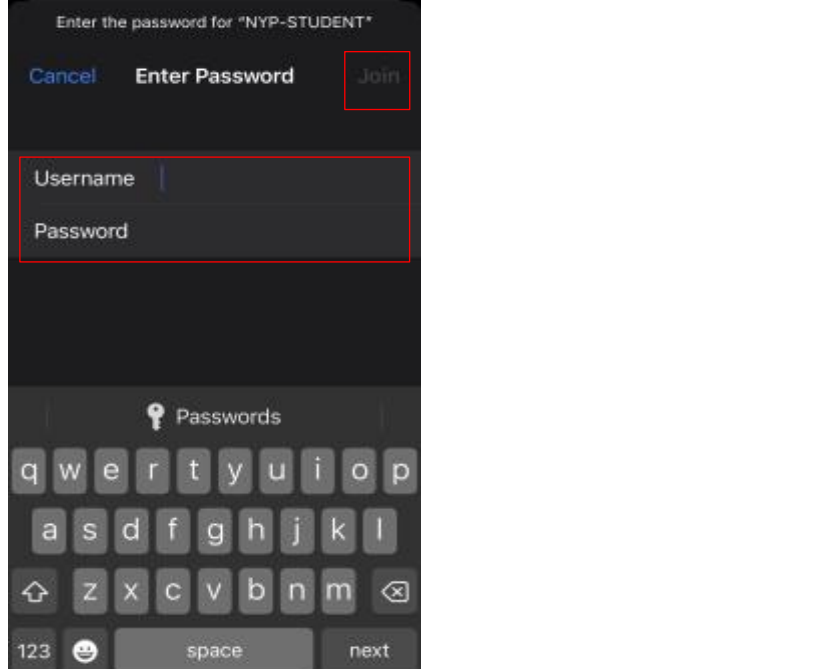

Forget a network, so Android Phone doesn't join it automatically: Choose Wi-Fi and tap next to a network you've joined before.

Then tap "Forget this Network." Reset the network settings on iPhone: Choose Settings > General > Reset > Reset Network Settings.

2. Configuration Guide for iPhone

*Screen base on iOS 16.1.1 and above installed, another version of iOS may differ.

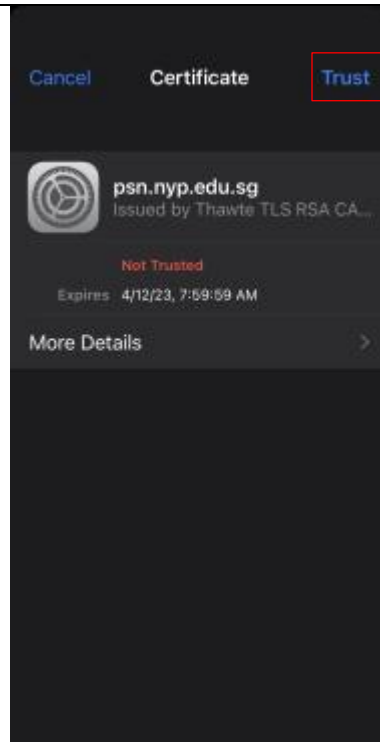

Student credential is student portal username and password.

<p>1. Connect to NYP-STUDENT WiFi network</p> <ul style="list-style-type: none">• From your Home screen, go to Settings > WiFi.• Turn on WiFi. Your device will automatically search for available WiFi networks.• Tap on the SSID: NYP-STUDENT	 A screenshot of an iPhone's WiFi settings page. The background is dark. At the top, the text 'NYP-Student' is displayed in white. To the right of the text are three icons: a lock, a WiFi signal, and an information icon (a lowercase 'i' in a blue circle). Below this, the network name 'NYP-STUDENT' is shown in white and is enclosed in a red rectangular box. To the right of this network name are the same three icons as above.
<p>2. Enter User Credentials</p> <ul style="list-style-type: none">• Enter Username and Password• Click “Join” <p>(Note: Join button will be available once user enter credential.)</p>	 A screenshot of an iPhone's password entry screen. The title at the top is 'Enter the password for "NYP-STUDENT"'. Below the title are three buttons: 'Cancel' in blue, 'Enter Password' in white, and 'Join' in white, which is highlighted with a red rectangular box. Below the buttons are two input fields: 'Username' and 'Password', both highlighted with a red rectangular box. At the bottom of the screen is a standard QWERTY keyboard with a 'Passwords' header and a key icon above it.
